

Benjamin D. Dockter, AIA

Ben has been practicing architecture for 17 years throughout Central Illinois. He has worked on projects ranging from K-12 schools, universities, churches, hospitals, libraries, and athletic facilities.

Ben is a Principal Architect tasked with maintaining long-standing client relationships through conception and delivery of projects. Ben brings a passion for creative problem solving to each project striving to guide clients through the complex design and construction process by elevating their ideas into a project that exceeds expectations.

Ben is a LEED Accredited Professional with a specialty in Building Design and Construction. He has worked in projects utilizing diverse sustainable design strategies including solar arrays, wind turbines, geothermal systems, green roofs, high efficiency building enclosures, and daylighting.

Ben is a native of Springfield as well as his wife Emily, an elementary school teacher. They live in Springfield with their children. Ben is an avid soccer fan. He also enjoys traveling, reading, and working on his house.
